

Immigration Fee Structure

At LinQ Immigration Ltd, we predominantly charge fixed fees for our services. To establish a fee, we first assess the specifics of your case. The fee is agreed upon upfront, providing you with complete transparency before you decide to proceed. The fee range varies due to the unique nature of each case. Factors contributing to complexity may include previous immigration history, previous visa refusals, personal circumstances, urgency, number of dependent family members, and the volume of evidence required.

Withdrawal of Services

Should you choose to discontinue our services midway through your case, we will bill you at an hourly rate of £150 for work already completed.

VAT Information

LinQ Immigration Ltd is not VAT registered, so no VAT will be added to the fees mentioned below.

Hourly Rate

An hourly rate of £150 will apply where a fixed fee is not appropriate, such as for consultations. This will be clearly communicated to you upfront.

Dependent Fees

The fee structure accommodates dependents, but additional dependents may incur extra charges within the given fee range.

Exclusions and Disbursements

Please note that our fees are **exclusive** of Home Office charges and other third-party disbursements. We will provide a full breakdown of these additional costs upfront. Disbursements could include fees for third-party services, such as barrister consultations or postage.

Scope of Work

Our fixed fees encompass all client interactions, document review and preparation, and application submission. This includes all correspondence, photocopying, scanning, and postage needed for the submission to UKVI.

Timeframes

While every case varies, we will provide an estimated timeline based on UKVI standard processing times. For expedited services, additional charges apply, and we will inform you of these costs and timeframes upfront.

Consultation Fees

We offer a one-hour consultation service at £150, which will be deducted from your total fee should you choose to proceed with a more comprehensive service.
